### SGD 75 (A) / 65 (C)

- Eagle Feeding. Watch Brahminy Kite Eagles and White Belly Sea Eagles in action. The wingspan of the female White Belly Sea Eagles can reach 2 meters. As the boat enters the feeding area, the eagles will follow and hover around the boat. As soon as the boatman drops chicken and fish into the sea, the eagles will dive for the feed. Being birds of prey, they normally feed on fish, birds, small bats, snakes and insects. Eagles are a protected species of the Malaysian Wildlife Department.
- Lake of the Pregnant Maiden. This is the largest lake in all the islands of Langkawi. The outline of hills and rocky outcrops on one side of the lake takes the shape of a pregnant maiden lying on her back. But the name of both the island and the lake is attributed to the legend of a lovely fairy princess who married an earthly prince. Her first child died shortly after birth and was buried in the crystal clear waters of the lake. Before returning to her fairy adobe, she blessed the waters so barren women who bath in the lake will conceive thereafter. Guests can take a dip in the lake or try out the paddle boat rides at their own expense. To reach the lake, there is some 250 meters of mild hill climbing so please be prepared!
- Isle of the Wet Rice. This beach is blessed with crystal blue water and pristine white sand. Passengers can also join the various water activities (parasailing, etc) at their own expense. Lunch will be served.
